

iSense RF High-performance RF EAS

The iSense RF EAS antennas are intelligent, network-enabled systems, which are equipped with integrated features such as customer counting, metal detection and patented Orientation Independent Detection (OID) technology for unprecedented detection performance.

Customer-friendly EAS

We have designed our EAS systems to help you protect your profits without creating a barrier at your front door or check-out area. Offer your shoppers a welcoming, pleasant environment and optimally benefit from the preventive effect at the same time.

Smart integrated sensors

The iSense antennas collect EAS alarm, booster bag and customer counting data. The different sensors are fully integrated in the design, keeping the entrance to your store open. For additional promotion, you can also add poster panels to invite passers-by to come into your stores and start shopping.

Intelligent & network-enabled EAS

Nedap RF EAS systems offer real-time actionable data. Our systems are connected to each other and the internet. The connectivity enables IP-integrations with CCTV camera's and offers real-time insights into potential security risks and the system performance.

The organization-wide dashboards enable you to monitor and benchmark all your stores remotely. You can gain a detailed overview of the number and types of EAS alarms, the footfall data and the alarm ratio's per store. Based on this data, you can act upon the theft risk level in each store and have all stores learn from your best store.

About Nedap

Nedap offers practical solutions to typical challenges retailers face worldwide. Our mission is to make it simple for retailers to always have the right products available.

To achieve this, we offer industry-leading solutions for our customers' diverse needs in loss prevention and stock management.

We are committed to increasing your revenue by helping you to permanently reduce shrinkage in your stores and counting your inventory more often in order to optimize your merchandise availability.

Global Presence

Nedap solutions are built upon 40 years of global experience, market expertise and close cooperation with leading retailers.

Our worldwide operations are supported by a flexible network of certified partners across the globe. Our partners represent us and support our global clients in every relevant retail market in the world.

Nedap Retail has offices in the Netherlands, France, Germany, UK, Spain, US, China and Hong Kong and certified partners in more than 120 additional countries.

References
